¹⁾ In the case of deformation calculations, the specified values shall be used. The values are determined from testing. It is not possible to calculate the modulus of elasticity, cross section or moment of inertia from these values.

Drill bit types

drill bits Ø mm	description	hardened clay bit	cross cut drill bit	button drill bit	carbide cross-cut/ tri-wing drill bit	carbide-Y- cross drill bit	carbide cross cut 3-step drill bit	carbide button drill bit

Illustrations may differ. If required, drill bits of a larger type can be used with an adapter.

FRIEDR. ISCHEBECK GMBH is, nationally and internationally, a leading manufacturer of products for geotechnical, formwork and trench shoring systems that have all been developed in line with German and international standards. Our products and services are founded on engineering expertise, diligence and a precise understanding of our customers' needs. As a result, we are also able to offer comprehensive, ancillary services that not only simplify your work with our products but also enable you to gain valuable know-how:

■ smartTITAN

Our digital tools simplify your work, save you time and enable you to planning reliability.

■ Downloads

Create an account on our website to get comprehensive information about our products.

■ Videos

Our product and company videos explain our services and help you to use our products.

Detailed information about our services can be found on our website:
www.ischebeck.com

■ Seminars

We offer high-quality specialist seminars – as in-house courses at your company, as online webinars or in our branches.

■ Trade fairs & congresses

You can get to know our products at many events around the world. We look forward to meeting and talking with you.

GET IN TOUCH

Are you looking for a contact to provide some advice for your building site? Have you got a question you'd like to ask us?

www.ischebeck.com/world

The images in this brochure represent snapshots of building sites. It may well be, therefore, that the situations shown do not yet fully meet certain (safety) technical requirements.

Certified management systems:

- Quality as per DIN EN ISO 9001:2015
- Environmental protection as per ISO 14001:2015
- Occupational safety as per ISO 45001:2018
